## About

**Helping business owners achieve maximum full growth potential while minimizing risks utilizing on-demand IT technology & performance-based marketing services.**

THIS MEASURABLE RESULTS

We help startups convert strategies out of the ideas-phase that implements IT technology solutions, create manageable results using digital marketing strategies, quantitative data, align company milestones to the tactical goals of the team, and implementing the process and cultures.

CORE COMPETENCIES:

Distinct competencies include the development of systems, competitive modeling, organizational structuring, breaking down complex problems, and engineering creative marketing solutions, processes, procedures, performance optimization techniques that increase the bottom-line.

ABOUT ME

My name is Jason Bishop, an Executive, Business Leader, IT Consultant with a superior track record within startups, growth, and competitive markets. Quickly identifies core problems, develops solutions, and implements the people, processes, systems, and solutions in place to drive growth, exposure, revenue, and profit under budget and in record time.

Provides confident, decisive leadership as well as strategic planning, tactical guidance, and management direction for programs, partners, products, solutions, and management.

Streamlines operations, reduces costs, improves efficiency, and thrives in challenging fast-moving environments. Sets high expectations, implements accountability standards, and plays a hands-on role in improving overall operations.

Recruits, coaches, and leads high-performance teams and empowers others to achieve their highest potential. Clear, straightforward a communicator who effectively implements IT solutions across all organizational levels and functional areas.

MY EXPERIENCE
